THE OBJECTIVE

Every visitor should leave thinking: “If they market themselves this well, imagine what they’ll do for my brand.” The site should read closer to a venture-backed startup than a traditional agency.

01

Vision & Positioning

Not freelancers. A media empire in the making.

24K Media is positioned as India's most premium creator-growth agency — a growth partner that builds internet brands end to end. The website is the first and most important proof of that promise. It is not a brochure; it is the flagship product demo. The craft of the site **is** the pitch.

The landing feeling

Within five seconds, a visitor should feel three things in sequence:

- **Authority.** These people operate at a level above the market.
- **Ambition.** This isn't a service shop — it's infrastructure for building brands.
- **Trust.** The polish signals that execution will be flawless.

Positioning statement

24K Media is the growth partner behind modern creators, founders and businesses — turning attention into authority, and authority into durable, monetisable internet brands.

Brand personality

Premium

Considered, never cheap. Every pixel earns its place.

Ambitious

Empire energy. We think in ecosystems, not one-off deliverables.

Founder-first

Built by an operator who has shipped products and grown audiences.

Modern

Apple / Linear / Stripe restraint — confident whitespace, motion with purpose.

Creator-first

We speak the language of attention, formats and distribution.

High-trust

Data, proof and process — not promises.

02

Brand Strategy

The non-negotiable: branding equal to or greater than 8club.

NORTH STAR

The brand and visual experience must **match or exceed 8club**. This is the single highest-priority criterion in this document. If a design choice is merely “good for an agency site,” it has failed. The bar is the most exclusive consumer brand experience in India — and then one notch higher.

What “8club or greater” means in practice

- **Membership-grade exclusivity.** The site feels like access, not advertising. Restraint, scarcity cues, invitation energy.
- **Obsessive motion craft.** Every transition is intentional and buttery. Nothing janky, nothing default.
- **Editorial confidence.** Big type, generous negative space, fearless black canvas, gold used sparingly as a signal of value.
- **Tactile depth.** Subtle grain, glow, parallax and light — surfaces feel like material, not flat divs.
- **Zero template smell.** No stock layouts, no generic hero illustrations, no off-the-shelf component look.

Tagline system

Primary

“We Build Internet Brands.”

Supporting lines (rotational / contextual)

- From Attention to Authority.
- The Growth Partner Behind Modern Creators.
- Build Your Personal Monopoly.

Voice & tone

We are	Confident, precise, calm. We state outcomes, not adjectives.
We are not	Hype-y, emoji-heavy, salesy, or “hustle-bro.”
Sentence feel	Short. Declarative. Premium. Each line could be a billboard.
Proof over claims	Numbers, case studies and process replace superlatives.

03

Design Language

Minimal. Luxury. High-trust. Dark canvas, gold signal.

Colour system

Obsidian
#0A0A0A
Primary canvas

Ivory
#F6F5F2
Primary text

24K Gold
#D4AF37
Accent / signal

Gold is a **signal of value**, never a fill. Use it for emphasis, the CTA, key metrics and active states. Maintain a roughly 90 / 8 / 2 ratio of black / ivory / gold across any given screen.

Typography

Display	Clash Display — headlines, hero, big statements.
Primary	Satoshi — sub-heads, UI, navigation, buttons.
Text	General Sans — body, paragraphs, captions.
Principles	Tight tracking on display, generous leading on body, true optical hierarchy.

Note: the production stack ships these via self-hosted woff2 with font-display: swap. This document approximates the hierarchy in a system grotesque.

Visual references

8club

The bar for premium branding & membership-grade feel.

Apple

Restraint, scroll storytelling, product reverence.

Linear

Precision, dark UI craft, micro-interactions.

Stripe

Trust, clarity, world-class motion & gradients.

CreatorTube

Service structure & agency information model.

Notion

Calm density, friendly editorial layout.

Motion & interaction principles

- **Smooth scroll.** Lenis-style inertia; the whole page moves like one surface.
- **Scroll-triggered storytelling.** Sections reveal, pin and build as the visitor descends.
- **Interactive cursor.** A custom gold cursor with magnetic hover on CTAs and cards.
- **Mouse-follow & parallax.** Subtle depth on the hero grid, particles and imagery.
- **Premium page transitions.** Curtain / fade transitions between routes — no hard cuts.
- **Framer Motion everywhere.** Spring physics, staggered reveals, layout animations.

Performance guardrail: motion must never cost the 90+ Lighthouse target. Animate transform/opacity only, respect prefers-reduced-motion, lazy-mount heavy 3D.

04

Information Architecture

Seven destinations, one persistent call to action.

Primary navigation

Home

The full narrative & proof.

Services

12 offerings → detail pages.

Case Studies

Outcomes with real metrics.

Portfolio

Filterable body of work.

About

Founder story & mission.

Resources

SEO content engine.

PERSISTENT CTA

A single, always-visible gold button: **“Book Growth Call.”** It is the one conversion path. It follows the visitor in the nav and reappears at every natural decision point.

Sitemap

- / Home — hero, proof, services, why, results, portfolio, founder, testimonials, process, resources, contact.
- /services & /services/[slug] Catalogue + 12 detailed service pages.
- /case-studies & /case-studies/[slug] Index + interactive, dashboard-style case study pages.
- /portfolio Filterable grid: thumbnails, videos, sites, campaigns.
- /about Founder journey timeline + mission.
- /resources & /resources/[slug] Blog / playbooks / reports (CMS-driven, SEO-optimised).
- /contact Premium qualifying form + Calendly + WhatsApp.

05

Page-by-Page Specification

The home page narrative, section by section.

01 Hero

The five-second verdict. Animated 3D gold grid + moving particles behind editorial type.

- **Headline:** “We Build Internet Brands That People Can’t Ignore.”
- **Sub:** Content, distribution, growth & media infrastructure for creators, founders & businesses.
- **CTAs:** Book Strategy Call (gold) · View Case Studies (ghost).

02 Social Proof

Immediate credibility. Logo wall + animated counters.

- **Logo wall:** creators · startups · brands, marquee scroll.
- **Counters:** Total Views Generated · Revenue Influenced · Videos Produced · Clients Served.
- **Motion:** count-up on scroll into view.

03 Services

12 premium cards with hover depth; each opens a detail page.

- **Grid:** responsive 3/2/1 columns, gold hover glow + magnetic cursor.
- **Behaviour:** card → /services/[slug].

04 Why 24K Media

Why fast-growing brands choose us.

- **Six pillars:** Strategy Before Execution · Dedicated Growth Team · Data-Driven Decisions · Full Content Ecosystem · Fast Turnaround · Founder-Led Execution.

05 Results

Interactive, dashboard-style case study cards.

- **Show:** Before vs After, growth metrics, views, revenue, subscribers, leads.
- **Feel:** live-dashboard visualisation, animated bars & deltas.

06 Portfolio

Filterable proof of work.

- **Filters:** Creator · Startup · Education · D2C · SaaS · Personal Brand.
- **Media:** thumbnails, videos, websites, campaigns.

07 Founder Story

The human + the credibility arc.

- **Timeline:** IIT Roorkee → Startups → Product → Growth → 24K Media.
- **Mission:** Help 10,000 Indian creators build sustainable businesses.

08 Testimonials

Social proof at the decision point.

- **Formats:** video testimonials, client reviews, founder reviews.
- **Layout:** premium carousel with smooth drag.

09 Process

Animated timeline that earns trust.

- **Steps:** 01 Discovery · 02 Strategy · 03 Production · 04 Distribution · 05 Growth · 06 Optimization.

10 Resources

SEO surface + authority engine.

- **Content:** blogs · case studies · growth playbooks · creator reports.

11 Contact

The qualifying conversion moment.

- **Fields:** Name · Company · Monthly Revenue · Goal · Budget · Message.
- **Integrations:** Calendly embed + WhatsApp click-to-chat.

Supporting page templates

- **Service detail.** Problem → approach → deliverables → proof → CTA. One per service.

- **Case study.** Narrative + interactive metric dashboard + before/after + testimonial.
- **Resource article.** Editorial layout, schema markup, related posts, lead magnet.

06

Service Catalogue

Twelve offerings — the full content & growth ecosystem.

01

YouTube Growth

End-to-end channel strategy, packaging & scaling.

02

Personal Branding

Positioning & narrative for individuals.

03

Podcast Production

Record, edit, clip & distribute.

04

Video Editing

Retention-first long & short-form edits.

05

Thumbnail Design

Click-worthy, on-brand thumbnails.

06

Content Strategy

Formats, calendars & topic systems.

07

Social Media Mgmt

Cross-platform publishing & community.

08

Founder Branding

Operator-to-authority storytelling.

09

LinkedIn Growth

B2B audience & inbound engine.

10

Performance Marketing

Paid acquisition & funnels.

11

Website Development

Premium sites & media infrastructure.

12

AI Content Systems

Automated pipelines & AI tooling.

Each card links to a dedicated detail page with its own outcome metrics, deliverables and proof — so the catalogue doubles as an internal-linking SEO mesh.

07

Premium Experience Features

The details that make it feel venture-backed.

01

Interactive cursor

Custom gold cursor, magnetic on CTAs.

02

Scroll storytelling

Pinned, building section reveals.

03

Animated case studies

Live-dashboard metric visualisations.

04

Video backgrounds

Tasteful, performance-budgeted loops.

05

Founder timeline

Animated journey reveal.

06

AI chat assistant

On-brand concierge for qualification.

07

Dark luxury theme

Obsidian canvas, gold signal, grain & glow.

08

Dynamic counters

Stat count-ups on scroll.

09

Client dashboard showcase

A peek at the operating system.

10

Mobile-first

Flawless on the device most visitors use.

08

Technical Architecture

A fast, SEO-strong, CMS-driven stack.

Stack

Frontend	Next.js (App Router) · TypeScript · Tailwind CSS · Framer Motion
Smooth scroll / 3D	Lenis · React Three Fiber / Three.js for the hero grid
Backend	Supabase — auth, database, form storage, leads
CMS	Sanity — services, case studies, portfolio, resources
Analytics	Google Analytics 4 · Microsoft Clarity (heatmaps & sessions)
Hosting	Vercel — edge, image optimisation, preview deploys
Integrations	Calendly · WhatsApp · email/CRM webhook on form submit

Performance & SEO

- **90+ Lighthouse.** Across performance, accessibility, best-practices & SEO — on mobile.
- **Core Web Vitals.** LCP < 2.5s, CLS < 0.1, INP < 200ms as hard targets.
- **Schema markup.** Organization, Service, Article, BreadcrumbList, FAQ.
- **Open Graph & dynamic meta.** Per-page OG images and titles generated from CMS.
- **Technical hygiene.** Sitemap, robots, canonical tags, image alt, semantic HTML.

09

Success Criteria & Acceptance

How we know it cleared the bar.

Acceptance checklist

- **The 8club test.** A neutral observer rates the brand experience at or above 8club. Non-negotiable.
- **The venture test.** The site reads as a venture-backed company, not an agency.
- **The five-second test.** First-time visitors articulate “premium / authority / trust” unprompted.
- **90+ Lighthouse mobile.** Verified on real devices, not just lab.
- **Zero template smell.** No section is identifiable as an off-the-shelf component.
- **Conversion clarity.** “Book Growth Call” is always one tap away and the obvious next step.

Build Roadmap

A pragmatic path from brand to launch.

Phase 1 — Brand & Design System

Define type, colour, grid, motion language and component kit in Figma. Lock the hero concept and the 8club-or-greater visual bar before any code.

Phase 2 — Foundation & CMS

Next.js + Tailwind scaffold, Sanity schemas, Supabase, analytics, SEO base, design tokens and the reusable component library.

Phase 3 — Home Narrative

Build the full home page section by section with Framer Motion, the 3D gold grid, smooth scroll, counters and the interactive cursor.

Phase 4 — Deep Pages

Services (×12), case studies with the metric dashboards, portfolio with filtering, about/founder timeline, resources templates.

Phase 5 — Conversion & Integrations

Contact form → Supabase + webhook, Calendly, WhatsApp, AI chat assistant.

Phase 6 — Polish & Launch

Performance pass to 90+, cross-device QA, motion refinement, schema & OG, then ship.

THE TEST THAT MATTERS

Ship nothing that you wouldn't be proud to put next to 8club. If a section doesn't make a stranger assume you're venture-backed, it isn't done.
